

Community Benefit Agreement

In addition to generating property tax revenue, Stark Power intends to establish a Community Benefit Agreement — a dedicated fund directed by community members to support local priorities.

Our Approach

1

Listen to community needs

Gather input from residents, local organizations and public agencies on where support is needed most.

2

Partner with local community organizations

Work through an established community foundation so decisions and grantmaking stay local.

3

Community board

Fund directed by a community member-led board that administers benefits directly.

4

Deliver net benefits

Fund programs that enhance community wellbeing and support essential services.

Our Commitment

Large initial investment

Ongoing annual investments

Amounts to be determined by overall project scope and specific community needs.

Potential Pathways for Investment

Distributed as grants through a local community foundation.

- +

Emergency services
- Ⓜ

School programming, facilities support or athletic initiatives
- 🏠

Parks and recreational facilities
- 👥

Education, training and apprenticeships
- 📁

Grants to community-serving organizations

Your input is needed

Tell us if there is a community need we should support — talk with our team today, or share your thoughts at www.mandandc.com.
